SAHIL MALLELWAR

GitHub | +91-8767510876 | smallelw@gitam.in | LinkedIn | Portfolio | Chandrapur

PROFILE SUMMARY

Full-stack developer skilled in MERN stack, C++, and Java, with strong knowledge of data structures and algorithms. Experienced in building authentication systems, API integrations, and responsive UIs. Passionate about creating scalable, business-driven applications that deliver real-world impact.

EDUCATION

GITAM (DEEMED TO BE UNIVERSITY), Visakhapatnam, Andhra Pradesh

2022-2026

• Bachelor Of Technology (B. Tech) | Computer Science & Business Systems

WORK EXPERIENCE

Google Android Developer Virtual Internship | AICTE-Edu Skills (Online)

01/2025 - 03/2025

 Engineered Android applications using Android Studio and Kotlin, focusing on UI/UX design, API integration, and app optimization.

Zidio Development Internship | As Web Developer (WFH)

02/2025 - 04/2025

 Led the development of a Task Management Application tailored for enterprise and corporate users. Oversaw a team, ensuring efficient task tracking, collaboration, and project delivery.

AWS Academy Data Engineering Virtual Internship | AICTE-Edu Skills

04/2025 - 06/2025

- Built and managed scalable data pipelines using AWS services, enabling efficient data ingestion and transformation.
- Designed ETL workflows for structured and semi-structured data.
- Optimized query performance and improved storage efficiency on the cloud by 30%.

PROJECTS

• Secure Authentication System

- Developed a modern authentication system using **React.js**, **Node.js**, **and MongoDB** with JWT-based login, password hashing, and protected routes.
- Created a responsive UI with Tailwind CSS and Framer Motion animations
- Implemented form validation, error handling, and secure cookies.

Campus Resolve Portal (CRP) – Smart Complaint Management System for Colleges

- Built with the MERN stack, focusing on accessibility, automation, and smart complaint handling for campus use.
- Initiated the project idea and managed the team throughout the development lifecycle.
- Integrated AI-based modules for spam detection and complaint prioritization to enhance resolution efficiency

Smart Web Bot

- Developed an Al-powered chatbot web app using modern web technologies for interactive, automated user responses
- Tech Stack: HTML, CSS, JavaScript, Al-based logic, Custom Bot scripts

SKILLS

- Programming Languages: C++, Java, Python. (Intermediate Level)
- Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML, CSS, JavaScript, Tailwind CSS, SQL
- AI/ML & Backend: TensorFlow, PyTorch, Hugging Face, FastAPI, Flask, REST APIs, Docker, Kubernetes.
- Cloud & DevOps: AWS, GCP, CI/CD (GitHub Actions, Jenkins).
- Additional Skills: Leadership, Problem Solving, Attention to Detail, Data Structures & Algorithms, Business Development.

CERTIFICATES

- Web Development Internship Zidio Development (Feb–Apr 2025) | Gained experience in MERN stack, API integration & responsive UI design | <u>Certificate</u>
- TechXcelerate 2025 Web App Development (MERN) | Workshop & Hackathon | BITS Pilani Hyderabad | Certificate
